

Website Administrator's Report for the Fall Committee Meeting

Congratulations to Jeane M., district 41 and Leslie C., district 40, for recreating their websites into more sustainable and responsive formats. Only those who have actually done it can understand the learning and effort that went into those achievements, but the ongoing rewards to their members will be well worth it. You can expect to hear more about the sustainability program in the future.

If anyone needs a little help navigating the new website format, I've added a "Website tour" link on the main page that displays a PDF of some simple instructions for using the site. At some point in the future I may remove that link if the space is needed. I expect it to n=be there for quite some time.

Finally, I would like any of the long-time area servants to help me understand some of the history of our website – particularly how it was decided that districts could build websites in subdomains of aa-nia.org. There has been some discussion in that regard and I'd like some background on it.

John C.
