

## Website Administrator's Report for the 2016 Winter Committee Meeting

Welcome newly elected trusted servants. We encourage everyone in Area 20 to become familiar with the area website ***aa-nia.org***. In addition to carrying the AA message it serves as a calendar, contact and document resource for area operations. It is also a focal point for our districts to disseminate meeting schedules, contacts and links to their websites. The success of the site's mission depends in large part on your feedback based on the needs of your particular areas of interest.

The most noteworthy recent developments were due to a suspected security breach. During the day that we took the site down we purchased services that we believe provide the best security available at this time.

The next major goal for us is to convert the site to a mobile-friendly format sometime in the first half of this year.

Respectfully submitted,

John C.

Website Administrator
