

Website Administrator's Report for the 2017 Spring Committee Meeting

I'm delighted to have Earl N. step up to be the alternate website administrator. He has been of great service to District 10, and among other things he rewrote their website. That site is a model for content and sustainability for organizations like ours. He has been extremely helpful in our own efforts with the area website. We are fortunate to have his dedication and expertise at the area level.

One minor change to the area site is the inclusion of motions on the Agendas page. Until now they were linked on the appropriate Events page, but beginning with the 2017 Spring Assembly you'll find them grouped with agendas. That ought to make them easier to find for future reference. Unfortunately we can't make that retroactive.

John C.

Area 20 website administrator
