

Technical Committee Report for the Summer Assembly

Please accept my apologies for the lack of progress in getting this committee started. That is about to be corrected. Very soon I will be submitting a list of candidates for the three at large member positions to Chris D. our area chairperson, who will make the appointments. My goal is to have the technical committee officially established for presentation to the Summer Committee Meeting on August 4.

A few people have verbally expressed their desire to be a candidate for an at large position but have not sent me an email as requested. To those people, if you are still interested, please send me an email as soon as possible.

John C.

Acting technical committee chairperson
