2022 Fall Committee Chair Report

In Person and Virtual meeting via Zoom

To the Area Assembly,

It's been a busy time in my life for the last 3 months between moving in and getting married to my beautiful bride. But as the fall starts to wind down life is moving to dull roar. I am getting settled in my new home and starting to acquaint myself with becoming a south sider.

I have worked with the Illinois State Conference committee to finalize the numbers and then they were share with the other areas. You will hear the details in the committee's report. I also had a meeting with the Illinois State Conference Policy Committee to discuss those numbers.

I finally called together the Technology Committee. I had finalized the non-profit paperwork with Microsoft and we are now a registered non-profit. The committee is now going to get a plan on moving into the new Microsoft tools for online storage and email.

I have received the updated NIA Service Manual with the changes and they are being translated and hard copies will be available at the Winter Assembly.

Thank you for allowing me to serve.

In Loving Service,

Rob Mefford
