Report & Charter Committee Report

NIA 20 Summer Assembly

June 19, 2026

Lord of Life

Following our report at the Spring Committee meeting, we are currently planning our first official meeting. Our initial agenda will include electing a committee chair and initiating reviews of the following items-

-NIA 20 Service Manual Correction (Page 75): We will review a requested correction regarding appointed service positions. Due to a typographical error and partial implementation of a motion from 2017/2018, the manual currently incorrectly states that these positions are required to attend committee meetings. The proposed correction will clarify that these individuals should instead *"be available to attend District meetings upon request."*

-Committee Consolidation Review: We will evaluate the impact of the motion passed at the Spring Assembly—which combined the Technology and Electronic Equipment committees—on our standing Area guidelines.

In Service,

Chris D. (Report & Charter Past Delegate)
