

Registrar's Report – Area Assembly 8.1.2026

Although you may not have seen me at recent meetings, I have been actively carrying out my responsibilities as Registrar. I would like to extend my sincere thanks to our Alternate Registrar for stepping in during the last couple of Area meetings. She did an outstanding job representing the Registrar position and communicating the group's requests and needs.

Since my last report, I have continued to update GSR and group information, process group changes, and communicate with G.S.O., district officers, and committee chairs as needed to ensure our records remain current and accurate.

A significant project currently underway involves identifying obsolete data within Fellowship Connection and verifying group contact information. This effort will help improve the accuracy and reliability of our Area's records. This is where we need the support of DCMs.

I am also collaborating with Registrars from other Areas to explore enhancements to Fellowship Connection through an API or a back-office administrative option. These improvements could greatly streamline the process and reduce manual data entry.

In addition, the Alternate Registrar and I are reviewing and updating our forms to simplify the submission process and ensure we receive cleaner, more complete information.

Thank you for the opportunity to serve as your Area Registrar.

When submitting change forms, please use the forms available on the NIA website and fill them out electronically. This helps us receive accurate information and minimizes the need for multiple communications regarding corrections or updates. We will also be updating the forms over the next couple of months.

All group forms are available for download from the NIA website:
