

January 17, 2026 – Winter Committee Meeting, Archivist report

The Assembly Actions file has been updated to include items from 1972 to the 2025 Winter Assembly in December. The PDF for this file is on the website. I will update it to include today's acceptance of the D11 bid for the Big Book Conference.

I was unable to attend the District 70 Archives Workshop due to illness. I understand they did a great job. Thank you, Carol, for covering the event for me.

I have been working on going through more archives in the storage unit. This time I pulled all the General Service Conference Final Reports. I found that we have electronic copies of all GSC reports going back to 1951. Beginning in 1978 we have original copies of reports, prior to that we have copies printed from electronic versions. We are missing an original copy of Panel 71, 2021. In some cases, we have Spanish version. Additionally, we have multiple copies many versions. I'm still trying to figure out what to do with those.

I continue to organize electronic files. Currently we have almost 27,000+ files on our OneDrive. Some of these are from other past Archivists, here in NIA and from Ohio. These files still need to be gone through to remove duplicates.

I have no expenses to date this year.

Thank you for allowing me to serve,
Cheryl V. NIA20 Archivist
