

# MOTION to amend the NIA Service Manual to include Green Can duties to the Treatment Chair responsibilities

## Motion:

The NIA Area Chair moves to add the following verbiage to the NIA Service Manual section outlining the duties of the Treatment Chair.

Add the following

Facilitate the collection of green can contributions.

- Green can funds are to be used only for literature for Treatment.
- Green can contributions are collected by groups. Pink can funds may be used directly by groups or districts to purchase literature for Treatment.
- Excess contributions should be forwarded to the N.I.A. Treasurer. Pink can funds held by the Area Treasurer are available to Districts by making a request of the Area Treatment Chair.
- Green can funds are available to the Area Treatment chair.

## Background:

It came to the chairs attention by the NIA Treasurer that although there is money that has been collected from the NIA groups for green can and has been held for use the treatment chair it has never been added to duties. The money has been collected and used up to this point with no guidelines.

The above verbiage is taken from the Corrections Chair guidelines and is suggested that the green can be handled in the same way.
